### **Ogam's Match Analysis vs Morocco**

#### **Overall Role & Impact**

Ogam is an agile, mobile centre-forward who thrives on movement and link-up play rather than aerial or physical dominance. Operating as the striker, he was the primary target and was able to lose his markers easily and get himself in spaces to receive the ball. He showed sharp decision-making in attack and remained active in disrupting opposition buildup. He read the game well, offering supporting angles and helping disrupt opposition-passing lanes. His game was defined more by decisive moments than by consistent control. While he needs to improve duel success and timing of runs, his energy, creativity, and goal-scoring instinct underline his effectiveness as a forward.
